Continuity in Computing

Migration Specialties Information Sheet

Founded in 1992, Migration Specialties provides a suite of products and services ranging from general OpenVMS consulting to highly specialized hardware and software replacement solutions. Our business focuses on preserving important software while upgrading the hardware that supports it. Migration Specialties products and services are available world wide with remote and onsite delivery options.

VIRTUAL HARDWARE SOLUTIONS

Migration Specialties provides legacy hardware virtualization services. Move critical OpenVMS, ULTRIX, DEC UNIX, and Tru64 UNIX applications running on Digital Equipment Corporation (DEC, Digital), Compaq, and HP [VAX](#) and [Alpha](#) hardware to new Intel-based Windows hardware without software or user interface changes. Keep the good software, replace the old hardware and realize performance, maintenance, space, and energy benefits. Visit www.MigrationSpecialties.com to learn more.

MIGRATION, CONVERSION, & PORTING SERVICES

Migration Specialties offers a range of application porting services, from simple data conversions to complex application migrations and integrations.
